

The following list of native plants contains some of the most beautiful, drought-adapted native foliage available. To feature these plants in your landscape, combine several species including trees, shrubs and ground covers for a silvery garden that glows in the moonlight or combine with a few evergreen staples for a more subtle gray theme. For detailed information about individual species see our Tree of Life Catalog at www.californianativeplants.com.

GENUS SPECIES	PLANT NAME	H/W
<i>Abutilon palmeri</i>	Indian Mallow	5' x 5'
<i>Arctostaphylos glauca</i>	Big Berry Manzanita	15' x 10'
