

The following is a list of native plants that you can put in the ground and virtually forget about except to enjoy their beauty and marvel at their efficiency. These plants work for a living and really earn their place in your landscape. You can choose to do as little or as much maintenance on them as you like and they will reward you year after year. Some are ground covers that are great for slopes, some make great accents or fillers and some are excellent screens for concealing whatever you may need to cover... all are drought tolerant. Take your pick!

For detailed information about individual species see our Tree of Life Catalog at [www.californianativeplants.com](http://www.californianativeplants.com).

GENUS SPECIES	PLANT NAME	DESCRIPTION
<i>Abutilon palmeri</i>	Indian Mallow	5'x5' full to part sun
<i>Artemisia californica</i>	California Sagebrush	4'x3' full to part sun
<i>Artemisia tridentata</i>	Big Basin Sagebrush	6'x6' full to part sun
<i>Baccharis pilularis</i> selections and hybrids	Coyote Bush	range of sizes, full sun to part shade
<i>Eriogonum fasciculatum</i>	Buckwheat	3'x4' full to part sun
<i>Grindelia stricta</i> var. <i>platyphylla</i>	Gumplant	1'x2' full to part sun
<i>Heteromeles arbutifolia</i>	Toyon	12'x12' full to part sun
<i>Iva hayesiana</i>	San Diego Marsh-Elder	2'x5' full to part sun
<i>Justicia californica</i>	Chuparosa	4'x4' full to part sun
<i>Muhlenbergia rigens</i>	Deer Grass	2'x2' full to part sun
<i>Peritoma arborea</i>	Bladderpod	5'x5' full sun
<i>Prunus ilicifolia</i>	Holly-Leaf Cherry	20'x12' full to part sun
<i>Quercus agrifolia</i>	Coast Live Oak	40'x35' full sun
<i>Quercus engelmannii</i>	Engelmann Oak	30'x20' full sun
<i>Rhus integrifolia</i>	Lemonade Berry	8'x6' full to part sun
<i>Rhus ovata</i>	Sugar Bush	12'x12' full to part sun
<i>Ribes viburnifolium</i>	Catalina Perfume	3'x6' part to full shade
<i>Salvia mellifera</i> varieties	Black Sage	2-5'x6' full to part sun
<i>Symphotrichum chilense</i>	Pacific Aster	1-3'x3' full to part sun
