Availability changes constantly, as our new crops become ready and our saleable material moves out. This Availability List is updated every month and will give you a general idea of our current inventory.

For more accurate daily availability, including the actual quantities and details on conditions, please call us at (949) 728-0685, or email us at [quotes@californianativeplants.com](mailto:quotes@californianativeplants.com)

We grow many crops in large and small quantities by special order or on a contract-grow basis.

If you are looking for a native plant which is not on the list, be sure to call, as many of our plants are not listed. This web-based Tree of Life Nursery Availability List is very general and is only intended to serve as a real-time planning tool for your native plant projects.
